		Time	17:42

Technical Delegate's Report

After the race in Montreal, car numbers 81, 16 and 63 were randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections was the low pressure fuel system, its compliance with TR Articles 5.11 and 6, as well as the team's submission in accordance with TD001 N, Article 6.

On the electronics side all electronic components were checked against the TD001 N, Article 6 submission, their connectivity with the SECU and the homologation status of the sensors and actuators.

All inspected components were found to be in conformance with the 2025 Formula One Technical Regulations.

Jo Bauer
