### Technical Delegate's Report

The following parts has been replaced during the first qualifying session yesterday by the Renault F1 Team team for one of a different specification:

Car 27: Front wing main plane

The part has been replaced during qualifying session 1, with a retrospective written request of the Renault F1 team received at 19:33. The team did not mention in their request that the front wing main plane is one of a different specification.

I am referring this matter to the stewards for their consideration.

**Jo Bauer**
