To	All Teams, All Officials	Date	28 October 2022
		Time	09:25

Note to Teams

Issuing of the Additional Intermediate Tyres

From the 2022 Mexican Grand Prix the following procedure will be adopted to determine if the additional intermediate tyres referenced in Article 30.5 f) and 30.5 g) of the Sporting Regulations will be made available.

At each competition where a sprint session is scheduled, if neither P1 nor the qualifying practice session are declared wet, the official weather forecaster will provide the Race Director with a report no later than one (1) hour after the end of the qualifying practice session. If this report indicates that the chance of rain in P2 is equal to or greater than 50%, then the additional set of intermediate tyres will be made available to all drivers.

At each competition where a sprint session is not scheduled, if neither P1 nor P2 are declared wet, the official weather forecaster will provide the Race Director with a report no later than one (1) hour after the end of the P2 session. If this report indicates that the chance of rain in P3 is equal to or greater than 50%, then the additional set of intermediate tyres will be made available to all drivers.

The Race Director will issue a Note to the Teams one (1) hour from the end of the qualifying practice session or P2 session where appropriate, informing them whether the additional set of intermediate tyres will be made available to all drivers. There will be no further review.

Niels Wittich
