Respect of Article 34.13 of the FIA Formula One Sporting Regulations

Having received reports from the Race Director and viewed video evidence, written reports from Pit Marshals and heard from each of the Team Representatives, the Stewards determine that numerous breaches of Article 34.13 appear to have occurred however the video evidence was in some cases insufficiently clear to determine where for example, a visor was open, the team member concerned may have been wearing glasses or other eye protection. Notwithstanding, there were numerous examples of eye protection not being used.

The safety of team members is paramount. All Teams are requested to stress the importance of eye protection for all personnel working on a car and ensure that this Article is respected by all team members in the future.
