Technical Delegate's Report

The Aston Martin Red Bull Racing team artificially dried the gridbox of car number 23 by using the engine cooling air of their leaf blowers when using these to cool the car engine. As this is in contradiction to the Race Directors Notes, Document 35, published on 19 July 2020 at 13:56hrs, I am referring this matter to the Stewards for their consideration.

Jo Bauer

The FIA Formula One Technical Delegate
