		Time	18:36

After the race of the Saudi Arabian GP, car number 01 was randomly chosen among the top ten cars for more extensive physical inspections.

Subject to these physical inspections were:

- all front and rear suspension dampers
- the engine air intake system
- the oil and coolant system and charge air cooling
- all sensors related to the above systems

All inspected components were found to be in conformance with the 2024 Formula One Technical Regulations.
